The mission of the Alternative Learning Program is to provide students in grades 7 – 12 an alternative road to develop academically, emotionally, and socially. The Alternative Learning Program offers a fresh start for students feeling overwhelmed with the traditional classroom setting. The program offers a caring environment, small class size, individualized instruction, social and emotional support, activities that promote life skills, career and character education, behavior management education, and counseling. The safe, inclusive environment promotes academic achievement, perseverance, and productivity. The goal of the program is to help students achieve their highest potential.
